STEP 3 — GENERATE TEST CASES

US-1

Consultant Dashboard My Inpatients

Story Title *

Consultant Dashboard My Inpatients

The main "As a..." statement that describes what the user wants to achieve.

Description

As a user, I want to consultant dashboard my inpatients so that the related functionality works as expected.

Optional — helps the AI generate more contextual test cases.

Acceptance Criteria *

Given a user with valid access, when they open the dashboard, then relevant data and visualizations should be displayed correctly without delay.

Given / When / Then format produces the best Gherkin test scenarios. Auto-filled when imported from Jira.

Additional Info

Edge cases, constraints, related systems, test environment notes...

Optional — mention edge cases or environments to get more thorough coverage.
